

PRINTABLE HEART GARLAND

supplies

printed hearts
scissors
yarn
tape

hint: if you have them, use cotton yarn & washi tape (they're compostable!)

print tips

- for best results, print on cardstock, or the thickest paper you have
- tell your printer which kind of paper you're printing on (matte, semi-gloss, plain)
- be sure to check "fit to size"
- save your ink and don't print this page:)
- if all/any of this stresses you out, just press print and it will still be cool

fun ideas

- try printing at 30-70% scale for tiny cuteness!
- print in B & W for your inner goth
- print two copies and have an extra long garland
- print three copies and arrange to make a rainbow wreath
- show me your fun idea on Instagram!
